I am a highly passionate individual who thrives upon seeking new challenges through my career as a Data Analyst. My initial years of working in the IT industry push me to go further in discovering more things in it. Of course, I am motivated to join a group of seasoned and experienced Analyst professionals in the industry respectively.

Experience

Trainee Software Engineer at Goa Electronics Limited

Nov 2021 - Oct 2023

Successfully contributed to Labour and Employment services Goa (under Goa Services) by spearheading the development and maintenance of official website. Leveraging my expertise in the java and PostgreSQL, I played a pivotal role in seamlessly integrating frontend and backend component, testing webpages using Agile methods, ensuring efficient and iterative development processes. consistently Deliver High Quality solutions aligned with project specifications and timelines.

maintenance and Support Team at Goa Electronics Limited

- Proficient in database management: collected datasets, processed and analysed data using tools like Excel.
- Extracting and collecting data from PostgreSQL databases using SQL queries, ensuring accurate and efficient data retrieval for analysis and processing.
- Proficient in updating and managing data in PostgreSQL databases using SQL queries, ensuring accuracy and efficiency in data maintenance and retrieval processes.
- Conducted data cleaning and optimization, ensuring efficient data processes and eliminating irrelevant information.
- Offered assistance to clients regarding the presentation of reports and the exportation of data, ensuring smooth and effective communication.

Education

Agnel Institute of Technology And Design
